Howard, thanks for the 3cl mailing with the Nichols eprint. I'm way behind. Is it worth reading now? I'm lling for moment...Immediate pressure temporarily past. esar just left, excited, euphoric with case I gave him i response to federal filings answering my ex.sess.suit. He knew I had a deep bag full of goodies but was surcprised with what I skimmed off the top for him. Gesell s judge. Jim says he just clobbered government lawyers. With t is, I suggest I've really armed Gesell if he is not still assassinations hungup. DJ lawyers went overboard, crossing ine in deliberate ffaud and I have proof, plus ditto on Rhoads, who filed evasive affidavit. I had so much it overwhelmed im, who cried, "More than enough." What he would have siezed upon in other cases he ignored, that much! If he does what we plan, I'm lightening rod via affidavit, so any shock comes to me. This one should build him the rep he deserves and I have exercised the client's right and told him that he is not to volunteer in the profession that he did not draft affidavit. HW 2/22/74
